A BETTER INDUSTRY OUTLOOK

When the supply chain made headlines during the pandemic, many people started to wonder just what this industry is all about. And although things in the news have quieted down, **the future of SCM has never looked brighter:**

- Jobs in the Supply Chain Management industry are growing fast: **154% faster than the national average.**
- Jobs in SCM have a **median yearly income of \$100k.**
- Thousands of jobs are available around the world.
- Employees with just one certification, certificate or credential earn 17% more than those without.

The industry reports overall high levels of job satisfaction. Data from the 2022 Supply Chain Salary and Career Report, Association for Supply Chain Management and ONET: Occupational Information Network entries for Logisticians and related titles.
