

Fraunhofer USA Center Midwest

Open House

You're Invited: Fraunhofer USA Center Midwest Open House

Come explore the research happening at Fraunhofer USA Center Midwest during our upcoming open house. Located on Michigan State University's campus, our center specializes in applied research that transforms scientific innovation into practical solutions for industry.

Join us on Wednesday, July 16 from 1:00 to 5:00 PM for an afternoon of lab tours, research showcases, and conversations with our scientists and engineers.

You'll be able to explore technologies in:

- Diamond materials and devices
- Advanced coatings and thin films
- Water treatment and purification
- Additive manufacturing and 3D printing
- Electrochemical sensing and diagnostics

Whether you're a student, researcher, industry partner, or just curious about what we do, we welcome you to stop by. Light refreshments and beverages will be served throughout the afternoon.

We look forward to seeing you there!
